expression of the local delegates to the Mining Congress at Butte who met at the Commercial club last evening to device ways and means for bringing the next meeting of the Congress to Salt Lake and having its permanent headquarters established here. The meeting was fairly attended by prominent mining men of the city, but those present deemed it wise to defer definit action until next Saturday night, when a genuine gathering will be held and hence confined themselves to a general discussion of the required work last

#### Letter of Appeal.

Some definite plans, however, met with general favor last evening. All present deemed it wise to send out strong letters to neutral delegates appointed from other States. These letters will lay particular stress upon the tuitable geographical location of Utah and advance the claim that its increasing mining industries demand recognition. Other inducements, such as a free site for permanent headquarters and a suitable place for gathering next year will be held out to the delegates in this

Many Cities Are Applicants.

Many cities are in the race for the convention and it was the sentiment of the meeting that Salt Lake must get down to work at once. In the coming contest Denver promises to prove Salt Lake's strongest opponent and according to the reports given out last night the Denverites have already formulated a definite plan of procedure and are now busily engaged scooping in votes. Other cities in the race are Denver, Cincinnati, Nevada City, Cal.; El Paso, Tex.; Omaha, Chicago and Minneapo-

Proxies will not count in the conven-tion and those delegates who cannot at-tend are requested to resign so that others may be appointed in their stead. Delegates Urged to Attend.

Every delegate is requested to be present at Saturday night's meeting. Representatives from every important public association will be in attendance to give the movement their hearty

### OUTLOOK AT KANSAS CITY.

#### Packers Appear to Be Growing Stronger Every Day. KANSAS CITY, Mo., Aug. 2.-Many

packing-nouse strikers applied for their old positions today, and most of them were re-employed. The packers appear to be daily growing stronger. The managers of the Armour and Powler plants say that they have about the same number of men Police Sergt, Wesley Reynolds, who was shot last night by Norman A Rupe ; watchman at Swift's plant, died tonight The police have not been able to find eviwhich would contradict Rupe's that the shooting was accidental is confined in the Wyandotte county

Jail I was stated at labor headquarters in Armourdale tonight that Michael Donnel- iy will address on open-air meeting in Shawnee park in Armourdale tomorrow afternoon. The strikers will assemble at the Kansas avenue bridge and parade the streets before going to Shawnee park in a body. Donnelly did not arrive here tonight as was expected, but will be here tomorrow morning.

### MAY CALL OUT TEAMSTERS.

#### Men May Go to Rescue of Butcher Workmen.

CINCINNATI, O., Aug. 2-The convention of the International Teamsters today indersed the action of President Shea and the executive board in calling out on sympathetic strike the St. Louis packinghouse teamsters in support of the striking butcher workmen. Many delegates sapross the opinion that unless the teamsters come to the rescuo the strike of the butcher workmen may be lost, and think the teamsters should support them to the last witch.

the teamsters should support them to the last witch.

So strong is the feeling that it is expected tomorrow the order will be extended to other citize, including Kanasa City. Dmaha, New York city and Philadelphia, the last two cities beinb named on actount of the large amount of the output of the packing houses which is handled there. If attempts are made to have packing house hauling done by teamsters simployed in other branches of business, they, too, will be called out.

The president recommended conservation in relations with employers in all branches except the packing industry. The secretary recommended a decrease in the supense fund of both the local unions and the national organization and the adoption of a union label to be prominently displayed in union barns.

### RATHER COOL IN ST, LOUIS.

No Occasion to Ignore World's Fair Because of Hot Weather.

"That is entirely uncalled for and a gross exaggeration," said Mr. Theophile Papin, Jr., of St. Louis, one of the guests of Mr. R. C. Kerens on his Western trip. Mr. Papin pointed out an interview teletraphed from New York in which an En glishman from main had taken occasio criticise the heat in St. Louis as too

as well as with citles both South and West.

This is the third year that St. Louis has experienced unusually cool weather in summer. It has been so cool in the evenlings that wraps have been desirable for comfort. August is the hot mooth, but there is no reason why any visitor should remain away from the world's fair on account of the weather. While the attendance has not been as great as expected, it has been greater than at any other of the world's big expessitions during the same months. The Louisiana Furchase exposition is the most collocal of all these vast undertakings, and no one who can go should allow any misrepresentation as to the heat in St. Louis to keep bin away.

sentation as to the heat in St. Louis to keep him away.

"The most enjoyable season of the year in St. Louis begins about the middle of August and lasts through the full months. The weather is delightful. But even now, as I said before it is not unpleasant, and compares favorably with the rest of the country. By the weather report in this morning a Tribune, I see that yesterday the thermometer registered 8s at Boston, 8s at Chicago, 9a at Knowille, 8s at New Orleans, 50 at Pittsburg, 95 at Portland, 8s at Washington, and 8s at Salt Lake, while at St. Louis it was only 81. These figures are official and speak for themselves."

#### 60 COLONIES OF BEES SWEPT AWAY BY FLOOD

Special to The Tribune SPANISH FORK, Aug. 2.-There was a flood in an aplary here Sunday afternoon which wrought have with some sixty colonies of beer. It was at the Fair apiary, in charge of Stewart & Dart. The Gem Roller Mill company had turned in the water in their upper canal. This supplies the high pressure power for the mill and the canal was well filled with water. Tust opposite and above the Fair apiary a break occurred and although bags and bedding and all sorts of stuff was pilled in to hold the flood till the water could be turned off above, the pressure was too great and the water swept down the hill, flooding some sixty or seventy colonies and tearing a guich through the middle of the spiary. Yesterday large clusters of bees could be seen hanging on the front of their homes as if mourning the loss of their summer's work and having no heart to begin again. which wrought have with some sixty colonies of been It was at the Fali
